

I do not want anymore telemarketing calls to my home phone numbers. Even though I signed up to have them stopped, I am still receiving telemarketing calls from The Newark Star-Ledger, (a local newspaper) just last Sunday (God's Day) February 13, 2005, in the afternoon I received a call from their telemarketer, the previous call was attempted on Friday February 11, 2005 during our family dinner time. These calls are annoying as it interrupts our family time together.
